

Underwater / Diving Services Guide

Maritime, Shipping & Ports

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a guide to commercial diving and underwater services — hull cleaning, inspection (IWS), underwater repair and salvage support — covering certification, safety, equipment and clients. Use it to plan an underwater-services business.

Purpose of this tool & output

Set up commercial diving and underwater services

How the output is used

Use it to set up commercial diving and underwater services — the certified divers, equipment, safety and jobs a diving business needs.

Important cautions

Commercial diving is extremely safety-critical and governed by strict diving codes and only certified divers and safe systems must be used; incidents are often fatal. Follow recognised commercial-diving safety codes and use certified personnel and proper insurance.
