

Marine Emergency Response Plan

Maritime, Shipping & Ports

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an emergency response plan — shipboard emergencies, shore emergency-response-team, notification, communications and drills — for owners and managers. Use it to be prepared and compliant for casualties.

Purpose of this tool & output

Prepare for shipboard and shore emergencies

How the output is used

Use it to prepare for shipboard and shore emergencies — a marine emergency response plan with roles, drills and notification.

Important cautions

Marine casualties escalate fast and reporting to authorities is mandatory; a real, drilled ERP is essential. Confirm the reporting requirements with DG Shipping and P&I and rehearse the plan with ship and shore.
