

ISPS Ship & Port Security Guide

Maritime, Shipping & Ports

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains ISPS Code compliance for ships and port facilities — security assessment and plan, security officers, levels, access control and drills. Use it to build and maintain ISPS security compliance.

Purpose of this tool & output

Comply with ISPS ship/port security

How the output is used

Use it to comply with ISPS ship and port security — the security plan, officers and drills the ISPS Code requires.

Important cautions

ISPS is mandatory for applicable ships and port facilities in international trade and is enforced; the security plan is sensitive and confidential. Confirm requirements with the designated authority and DG Shipping and keep security plans confidential.
