

Port & Terminal Safety Programme

Maritime, Shipping & Ports

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a safety programme for port and terminal and stevedoring operations — the high-risk hazards, equipment and traffic and cargo safety, PPE, training and emergency response. Use it to run safe port operations.

Purpose of this tool & output

Build port and terminal safety

How the output is used

Use it to build port and terminal safety — a safety programme covering ISPS, cargo, equipment and worker safety.

Important cautions

Port and stevedoring operations are high-injury environments governed by port and dock-safety regulations; incidents cause serious harm and liability. Align with the applicable dock-worker safety regulations and enforce safe systems and competence.
