

Voyage Planning & Passage Guide

Maritime, Shipping & Ports

Document type: Plan / SOP / strategy / guide · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a voyage and passage plan framework — route and weather, ports and draft and tides, bunkers, cargo and ETA and speed optimisation — for a voyage. Use it to plan voyages for safety and efficiency.

Purpose of this tool & output

Plan a safe, efficient voyage

How the output is used

Use it to plan a safe, efficient voyage — a voyage and passage plan across route, weather, bunkers and port calls.

Important cautions

Passage planning is a navigational-safety responsibility of the master and officers using current charts and publications; this is a planning framework, not navigational advice. Follow SOLAS passage-planning requirements and use current charts and weather.
