

Content Translation & Localisation

Media & Entertainment

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Translates media content into a target language with cultural adaptation, flagging elements that need a native-speaker review and terms best left untranslated. Use this for scripts, subtitles, marketing copy or press material crossing languages. For lip-sync-aware dubbing dialogue use Dubbing Script Adapter; for a subtitle file from a transcript use Subtitle (SRT) Generator.

Purpose of this tool & output

Upload script or subtitle file and we translate with cultural adaptation notes

How the output is used

Use the translation with cultural-adaptation notes to localise a script or subtitles for a target market.

Important cautions

AI translation. For broadcast/streaming use, have a native speaker professionally review.

Companion documents

- Subtitle (SRT) Generator
- Dubbing Script Adapter
