

Content Rating Advisor

Media & Entertainment

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Advises on the likely content rating (CBFC categories for India, plus OTT self-rating tier) from the elements you describe, and suggests edits to reach a lower rating. Use this to anticipate certification. For a broader sensitivity review use Age-Rating / Sensitivity Review.

Purpose of this tool & output

Guidance on likely content rating

How the output is used

Use the guidance to anticipate a likely content rating and to plan edits before certification or platform submission.

Who should vet it

A certification/compliance advisor, to confirm the likely rating and required cuts.

Important cautions

AI-generated guidance; CBFC/self-rating decisions are the certifying body.
