

Script Analysis & Coverage

Media & Entertainment

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces professional reader coverage of a screenplay or script: logline, synopsis, and rated notes on concept, structure, character, dialogue, pacing, production feasibility and commercial potential, ending with a Recommend/Consider/Pass verdict. Use this before pitching or greenlighting a script, or to diagnose a draft that is not working. To draft a pitch document for a project rather than assess a script, use Media Project Pitch Document.

Purpose of this tool & output

Upload a screenplay or script and get professional coverage with structure and commercial analysis

How the output is used

Use the coverage to judge a script on structure, characters and commercial potential before you develop or greenlight it.

Who should vet it

A development executive or story editor, to weigh the coverage against your slate and market.

Important cautions

AI-generated coverage. Subjective assessment only.
