

Factory Licence Guide

Manufacturing & Industrial

Document type: Licence / statutory filing · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get your factory registered under the Factories Act — applicability by worker count and power, the registration process and plan approval, documents and ongoing obligations. Fill in the details below.

Purpose of this tool & output

Get your factory registered under the Factories Act

How the output is used

Use the guide to get your factory registered/licensed under the Factories Act before you begin manufacturing.

Who receives it

The Chief Inspector of Factories / Directorate of Industrial Safety & Health (DISH) of your state.

How to submit / file it

Apply with the factory plans, stability certificate and worker/power details; approval and inspection precede the licence.

Fees & charges

A state-specific fee based on worker count and installed power.

Who should vet it

A factory-compliance consultant and a licensed structural engineer for the stability certificate.

Important cautions

AI-generated guide; the Factories Act is administered state-wise, confirm with your state inspectorate.
