

Manufacturing KPI Dashboard

Manufacturing & Industrial

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Design a KPI dashboard for your plant — the KPIs that matter (OEE, on-time delivery, first-pass yield, rejection PPM, inventory turns, cost per unit, safety) with formulas, why each matters and a benchmark hint, plus a review cadence and layout. Fill in the details below.

Purpose of this tool & output

Track the metrics that run the plant

How the output is used

Use the dashboard to track the metrics that run the plant — OEE, quality, cost and delivery.

Important cautions

AI-generated framework; set targets from your own history.

Companion documents

- Product Costing Sheet
- BOM Costing Analyzer
- Capex Justification / ROI Note
- Scrap & Rework Cost Analyzer
- Manufacturing Business Case / Loan Note
- Manufacturing GST Guide
