

Mine / Reserve Valuation Framework

Mining, Metals & Minerals

Document type: Financial model / analysis · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a valuation framework for a mine or mineral reserve — approaches (reserve/NPV, comparable, cost), the key value drivers (reserves, grade, life, costs, prices, approvals), and how to arrive at a defensible value range. Fill in your context below.

Purpose of this tool & output

Value a mine or mineral reserve

How the output is used

Use it to value a mine or mineral reserve — a valuation on reserves, grade, life, approvals and cash flow for a sale or investment.

Who should vet it

A CA or a competent-person valuer, to firm up the reserve and valuation basis for any actual transaction.

Important cautions

AI-generated framework; a formal valuation needs a registered valuer and technical review.
