

Mining Joint Venture Agreement

Mining, Metals & Minerals

Document type: Contract / agreement · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft a mining joint venture agreement between partners — contributions (lease, capital, expertise), equity and management, profit sharing, decision rights, and exit — to combine strengths while protecting each party. Fill in the deal terms below.

Purpose of this tool & output

Structure a mining JV clearly

How the output is used

Use the draft to structure a mining JV clearly — capital, control, mineral rights, profit share and exit — reviewed by a lawyer.

Who receives it

The agreement is between the joint-venture partners; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the control, mineral-rights, profit-share and exit terms are the key content.

Who should vet it

A corporate/mining lawyer, to check the control, mineral-rights, deadlock and exit clauses before signing.

Important cautions

AI-generated draft; mining lease transfers are regulated; have it legally reviewed.
