This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a helper for statutory mine returns under MCDR — monthly and annual returns to IBM/state, the data each needs (production, stocks, dispatches, prices), and record-keeping to file accurately and on time. Fill in your context below.

Purpose of this tool & output

File monthly and annual mine returns

How the output is used

Use it to file monthly and annual mine returns — the MCDR returns a lease holder must submit to IBM on production and stocks.

Who receives it

The returns are filed with the Indian Bureau of Mines (IBM) under the Mineral Conservation and Development Rules (MCDR).

How to submit / file it

Submit the monthly and annual returns online with production, dispatch, stock and royalty details in the prescribed form and timeline.

Who should vet it

The mine Manager/RQP, to compile and certify the MCDR returns before filing with IBM.

Important cautions

AI-generated helper; confirm exact forms and deadlines with IBM/state.
