# Mining Mutual NDA

Mining, Metals & Minerals

Document type: Contract / agreement · Generated 26 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Draft a mutual NDA for mining discussions — exploration data, reserves, pricing and deal terms — with clear confidentiality, permitted use, and return-of-information provisions. Fill in the parties below.

## Purpose of this tool & output

Protect data in mining deals

## How the output is used

Use the draft to protect data in mining deals — a mutual NDA over reserves, assays and commercials — reviewed by a lawyer.

## Who receives it

The NDA is between the disclosing and receiving parties; each keeps a signed copy.

## Fees & charges

Usually on plain or nominal stamp paper; the definition of confidential information (reserves, assays, pricing) and the term are the key content.

## Who should vet it

A lawyer, to check the scope, term and carve-out clauses before you share sensitive geological or commercial data.

## Important cautions

AI-generated draft; have it legally reviewed.

## Companion documents

- Raising / Mining Contractor Agreement
- Mineral Transport Agreement
- HEMM Equipment Hire Agreement
- Mineral Offtake Agreement
- Crusher / Plant Lease Agreement
- Mining Surface Land Lease Agreement

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
