

Mineral Offtake Agreement

Mining, Metals & Minerals

Document type: Contract / agreement · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft a long-term mineral offtake agreement between a producer and a buyer — committed quantity and tenure, specification and testing, pricing formula, take-or-pay, delivery, and payment security. Fill in the deal terms below.

Purpose of this tool & output

Lock in a long-term mineral buyer

How the output is used

Use the draft to lock in a long-term mineral buyer — quantity, grade, price mechanism, offtake commitment and default — reviewed by a lawyer.

Who receives it

The agreement is between the mine (seller) and the offtaker (buyer); each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the offtake commitment, price mechanism and default terms are the key commercial content.

Who should vet it

A commercial lawyer, to check the offtake commitment, price-mechanism, take-or-pay and default clauses before signing.

Important cautions

AI-generated draft; have it legally reviewed.
