Raising / Mining Contractor Agreement

Mining, Metals & Minerals

Document type: Contract / agreement · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft a raising/mining contractor agreement between a lease holder and a contractor — scope and production targets, rate per tonne, equipment and manpower responsibility, safety and statutory compliance, and payment and term. Fill in the deal terms below.

Purpose of this tool & output

Engage a raising contractor on clear terms

How the output is used

Use the draft to engage a raising contractor on clear terms — scope, rate per tonne, safety, statutory duties and liability — reviewed by a lawyer.

Who receives it

The agreement is between the lease holder and the raising/mining contractor; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the rate-per-tonne, safety-responsibility and statutory-duty terms are the key content.

Who should vet it

A mining lawyer, to check the rate, safety-responsibility, statutory-compliance and liability clauses before signing.

Important cautions

AI-generated draft; the lease holder retains statutory responsibility; have it legally reviewed.

Companion documents

- Mineral Transport Agreement
- HEMM Equipment Hire Agreement
- Mineral Offtake Agreement
- Crusher / Plant Lease Agreement
- Mining Surface Land Lease Agreement
- Mining Joint Venture Agreement

processes vary by state and change over time — confirm with your state authority.
