AISEVAK.IN · FREE GUIDE

Landed Cost & Royalty Model

Mining, Metals & Minerals

Document type: Financial model / analysis · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Model the full landed cost of your mineral to a buyer — production cost, royalty/DMF/NMET, loading and transport, and margin — as a build-up so you can quote and negotiate with confidence. Fill in your inputs below.

Purpose of this tool & output

Build up the full delivered cost of mineral

How the output is used

Use it to build up the full delivered cost of mineral — landed cost across royalty, DMF, NMET, transport and handling.

Who should vet it

Your CA or finance lead, to confirm the royalty, DMF/NMET and transport inputs in the landed-cost build-up.

Important cautions

AI-generated model; validate rates and royalty notifications.
