

Scrap Grading Guide

Mining, Metals & Minerals

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a grading guide for metal scrap — common ferrous and non-ferrous grades, identification and testing, contamination and yield deductions, and how grade maps to price — so you buy and sell fairly. Fill in your context below.

Purpose of this tool & output

Grade ferrous and non-ferrous scrap correctly

How the output is used

Use it to grade ferrous and non-ferrous scrap correctly — a grading guide that prices scrap fairly and avoids disputes.

Important cautions

AI-generated guide; align to buyer/mill specifications.
