

# Stone Crusher Siting & Approval Guide

Mining, Metals & Minerals

Document type: Licence / statutory filing · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Get a guide to establishing a stone crusher unit in India — state stone-crusher siting rules (distance from habitation, roads, water bodies), consents, dust-control mandates, and required registrations. Fill in your context below.

## Purpose of this tool & output

Set up a stone crusher legally

## How the output is used

Use it to set up a stone crusher legally — the siting approval and consents a crusher needs under the State stone-crusher rules.

## Who receives it

The siting/operation approval is granted by the District authority and the State Pollution Control Board (SPCB) under the State Stone Crusher Rules.

## How to submit / file it

Apply with the site, distance-norm compliance, dust-control and land documents; SPCB consent and district clearance precede operation.

## Fees & charges

Application and consent fees plus the cost of mandated dust-suppression measures; approvals are periodically renewed.

## Who should vet it

An environmental consultant and the District/SPCB authority, which verify siting norms and pollution control before approval.

## Important cautions

AI-generated guide; stone-crusher rules vary by state; confirm with SPCB and district authorities.
