

# Vehicle Scrapping (RVSF) Guide

Mining, Metals & Minerals

Document type: Licence / statutory filing · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Get a guide to setting up a Registered Vehicle Scrapping Facility (RVSF) under Indias vehicle scrappage policy — registration, infrastructure and process, Certificate of Deposit and de-registration, environmental norms, and material recovery. Fill in your context below.

## Purpose of this tool & output

Set up a Registered Vehicle Scrapping Facility

## How the output is used

Use it to set up a Registered Vehicle Scrapping Facility (RVSF) — the registration and approvals an RVSF needs under the vehicle-scrapping rules.

## Who receives it

The RVSF is registered with the State Transport Department / RTO (on the VAHAN/RVSF portal) with SPCB authorisation, under the MoRTH RVSF Rules 2021.

## How to submit / file it

Apply with the facility, equipment, land and pollution-control documents; SPCB authorisation and the RVSF registration precede operation and the issue of Certificates of Deposit.

## Fees & charges

Registration and SPCB authorisation fees plus the cost of the mandated depollution and dismantling infrastructure; registration is periodically renewed.

## Who should vet it

An environmental/automotive consultant and the Transport/SPCB authorities, which verify the facility before registration.

## Important cautions

AI-generated guide; confirm current RVSF rules with the transport department and CPCB.
