

Mine Water Management Plan

Mining, Metals & Minerals

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a water management plan for a mine — mine drainage and pit water, rainwater and runoff control, sedimentation and treatment before discharge, water recycling, and ground water considerations. Fill in your context below.

Purpose of this tool & output

Manage mine water and rainfall runoff

How the output is used

Use it to manage mine water and rainfall runoff — a water management plan covering pit water, drainage and reuse.

Important cautions

AI-generated plan; align to SPCB discharge norms and CGWA where applicable.
