

Logframe Builder

Nonprofit, NGO & Social Sector

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a logical framework (logframe) — goal, outcome, output and activity levels, each with description, indicators, means of verification and assumptions. Use this for the results framework funders expect. Refine it with your team and the funder format. For the impact narrative use the Theory of Change Builder.

Purpose of this tool & output

A logical framework funders expect

How the output is used

Use the builder to create the logical framework funders expect — goals, outcomes, outputs and indicators.

Important cautions

AI-generated logframe; refine with your team and funder format.
