

Program Quality Audit

Nonprofit, NGO & Social Sector

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a program quality audit — area by area (design fidelity, delivery, M&E, beneficiary experience, documentation) with checks and gaps, a Good/Fair/Poor scorecard and priority fixes. Use this to audit program delivery and quality. Complement it with field visits.

Purpose of this tool & output

Audit program delivery and quality

How the output is used

Use the tool to audit program delivery and quality against plans and standards.

Who should vet it

A senior program lead independent of delivery, to validate findings.

Important cautions

AI-generated audit; complement with field visits.
