

Pharmacy Inventory & Expiry Control

Pharma, Chemicals & Life Sciences

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an inventory and expiry control system for a retail pharmacy — batch and expiry tracking, FEFO, near-expiry returns, reorder and fast/slow movers — with expiry management (alerts, returns to distributor) and shrinkage controls. Use this to control stock, expiry and shrinkage in the store.

Purpose of this tool & output

Control stock, expiry and shrinkage

How the output is used

Use it to control pharmacy stock, expiry and shrinkage so you lose less to expiry and pilferage.

Important cautions

AI-generated system; maintain batch and expiry records.
