

Product Margin Analyzer

Pharma, Chemicals & Life Sciences

Document type: Financial model / analysis · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Analyses product-level margins across your portfolio — per product the price, cost, margin % and a Push / Reprice / Review verdict — with mix actions and a DPCO note (check scheduled-drug ceilings). Use this to find your most profitable products and act on the mix.

Purpose of this tool & output

Find your most profitable products

How the output is used

Use it to rank products by true margin and to focus effort on the most profitable ones.

Who should vet it

A CA or your finance team to confirm the cost and price data behind the ranking.

Important cautions

AI-generated analysis; based on the data you provide.
