

# Product Training Kit

Pharma, Chemicals & Life Sciences

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Builds a product training kit for the field force — product knowledge (composition, indications, dosage, safety), positioning (approved messaging), objection handling (within approved claims) and an assessment. Use this to train MRs on a product. Keep to approved indications and UCPMP.

## Purpose of this tool & output

Train the field force on products

## How the output is used

Use the kit to train your field force on a product, its science, positioning and compliant messaging.

## Important cautions

AI-generated kit; keep to approved indications and UCPMP.
