

R&D Project Plan

Pharma, Chemicals & Life Sciences

Document type: Plan / SOP / strategy / guide · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an R&D project plan — phased (feasibility, development, scale-up, stability, filing) with activities, durations, milestones and risks. Use this to plan a product development project. Adapt it to your product and regulatory pathway. For the development method use the Formulation Development Guide.

Purpose of this tool & output

Plan a product development project

How the output is used

Use the plan to run a product development project with clear stages, milestones and deliverables.

Important cautions

AI-generated plan; adapt to your product and regulatory pathway.

Companion documents

- Formulation Development Guide
