

Serialisation & Track-Trace Guide

Pharma, Chemicals & Life Sciences

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains serialisation and track-and-trace for Indian pharma — barcoding on primary, secondary and tertiary packs, DGFT track-trace for exports and domestic requirements for top brands — with data upload portal awareness and implementation (systems and printing). Use this to meet coding and track-trace requirements. Confirm current DGFT and CDSCO requirements.

Purpose of this tool & output

Meet coding and track-trace requirements

How the output is used

Use the guide to meet coding, barcoding and track-and-trace requirements for your products and markets.

Important cautions

AI-generated guide; confirm current DGFT and CDSCO track-trace requirements.

Companion documents
