

Team Style Consistency

Photography & Videography

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a system to maintain style consistency across shooters and editors — a style guide, presets/references, shooting and editing standards, and review — so every client gets your signature look regardless of which team member shot or edited it, protecting the brand. Use it to standardise style. For training use the Team Skill Development tool.

Purpose of this tool & output

Ensure the whole team delivers your look

How the output is used

Use it to ensure the whole team delivers your look — a team style consistency guide across presets, standards and review.

Important cautions

Clients book YOUR signature style — a documented style guide, shared presets/references and a QC gate keep every shooter and editor on-brand; inconsistent style across team members confuses clients and dilutes the brand you sell.
