

# Difficult Conditions & Contingency

Photography & Videography

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Builds contingency plans for difficult shoot conditions — rain/weather, harsh or very low light, crowds/chaos, uncooperative subjects, and gear failure — so you deliver even when things go wrong. Use it to prepare for the unexpected. For gear backup use the Equipment & Backup Checklist tool.

## Purpose of this tool & output

Handle rain, low light, chaos and failures

## How the output is used

Use it to handle rain, low light, chaos and failures — a difficult-conditions and contingency guide for tough shoots.

## Important cautions

A professional delivers regardless of conditions — have weather backups, low-light technique/flash, gear redundancy and patience for difficult subjects; sometimes embracing the conditions (rain, drama) makes the best images.

## Companion documents
