This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a plan to develop and manage a reliable freelance crew pool — a vetted roster of shooters/cinematographers/editors, briefing and style standards, fair rates and prompt payment, and availability for peak season — so you scale flexibly with dependable crew. Use it to manage freelancers. For hiring use the Team & Freelancer Hiring Kit.

Purpose of this tool & output

Build a reliable freelance crew pool

How the output is used

Use it to build a reliable freelance crew pool — a freelancer network management approach for flexible shoot capacity.

Important cautions

Build a vetted, style-fit freelance pool and secure peak-season availability ahead of time; pay fairly and promptly so your best freelancers prioritise you — reliable crew is the constraint on scaling wedding work in peak season.
