

Outsourcing Editing Management

Photography & Videography

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a process to outsource editing (photo/video) — selecting editors/companies, communicating your style (reference edits/presets), quality control, turnaround and cost, and data security — so you scale delivery and clear the editing bottleneck without losing your signature style. Use it to outsource editing. For the in-house workflow use the Photo Editing Workflow tool.

Purpose of this tool & output

Scale editing with outsourced help

How the output is used

Use it to scale editing with outsourced help — an outsourcing editing management process that keeps quality and confidentiality.

Important cautions

Outsourcing editing clears the delivery bottleneck but you must communicate your signature style (presets/reference edits) and QC the output for consistency; ensure data security/confidentiality of client footage with the editor.
