This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds portrait service packages — newborn, maternity, family, kids, and personal branding/model portfolio — with session structure, deliverables, safety (esp. newborn) and pricing, so you offer profitable studio portrait services with steady, less-seasonal demand. Use it for portrait services. For the catalog use the Service Catalog & Package Design.

Purpose of this tool & output

Design studio portrait service packages

How the output is used

Use it to design studio portrait service packages — portrait, newborn and maternity packages priced for value.

Important cautions

Newborn/baby photography requires trained safe handling, hygiene and never-risky posing (use composites/spotters) — safety is paramount. Portrait services give steadier income to balance seasonal weddings.
