Photography & Videography

Document type: Contract / agreement · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a wedding photography/videography contract with each term separate — events and coverage, crew and deliverables, price and payment milestones, non-refundable booking advance and cancellation, delivery timeline, copyright/usage, and failure/liability — so a high-value emotional booking is fully protected for both sides. Use it for wedding bookings. For cancellation depth use the Cancellation & Rescheduling Policy tool.

Purpose of this tool & output

Protect a high-value wedding booking discretely

How the output is used

Use the draft to protect a high-value wedding booking — coverage, deliverables, advance, cancellation and liability — reviewed by a lawyer.

Who receives it

The agreement is between the studio and the couple/family; each keeps a signed copy.

Fees & charges

Usually on plain or nominal stamp paper; the advance, coverage, delivery-timeline and cancellation terms are the key content.

Who should vet it

A lawyer, to check the advance, cancellation, liability and delivery clauses before you rely on it.

Important cautions

AI-generated draft; a wedding cannot be reshot, so include a substitute-shooter/force-majeure clause and a liability cap (refund) for failure, plus a non-refundable booking advance and clear deliverables/timeline. Have a lawyer review.
