Purpose of this tool & output

Run a flawless multi-event wedding shoot

How the output is used

Use it to run a flawless multi-event wedding shoot — a wedding day coverage SOP across events, crew and handoffs.

Important cautions

Indian weddings have chaotic simultaneous events — split crew coverage deliberately (bride/groom side, candid/traditional, photo/video) and coordinate with the couple/planner; back up cards on-shoot. A missed key ritual cannot be reshot.
