

Grading & Quality Standards SOP

Plantation & Commercial Crops

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a grading and quality-standards SOP for the crop — the grades, criteria, sampling and quality parameters buyers and auctions and exporters use — to realise the best price. Use it to grade produce consistently.

Purpose of this tool & output

Grade produce to market standards

How the output is used

Use it to grade produce to market standards — a grading and quality standards SOP that earns a better, predictable price.

Important cautions

Grade definitions and premiums are crop- and market-specific and set by buyers, auctions and standards bodies; grading errors cost price. Confirm current grade standards with your board, auction or buyer.
