Box Spec / BOM Sheet

Printing & Packaging

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Generate a clear box specification and bill-of-materials sheet — dimensions, board, flute, print, ply and construction — so production and vendors make the exact same box every order. Enter the box details below.

Purpose of this tool & output

Document a box so it is made right every time

How the output is used

Use it to document a box so it is made right every time — a box spec and BOM sheet for consistent reorders.

Important cautions

AI-generated spec; confirm blank size with your box maker.
