This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get an indicative valuation view for a printing/packaging business — relevant methods (earnings multiple, asset-based), the value drivers and discounts specific to the industry, and a reasoned range — for a sale, buyout or investment. Describe the business below.

Purpose of this tool & output

Estimate what a print business is worth

How the output is used

Use it to estimate what a print business is worth — a valuation on earnings, machinery, clients and capacity for a sale or investment.

Who should vet it

A CA or valuer, to firm up the valuation for any actual transaction.

Important cautions

AI-generated indicative guidance, not a formal valuation; engage a registered valuer for transactions.
