

Print Capex / Investment Plan

Printing & Packaging

Document type: Financial model / analysis · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Build a capex plan for a printing/packaging investment — machine and ancillary costs, phasing, funding mix (loan/subsidy/own), and the payback/return case — to plan and justify the spend to a bank. Describe the investment below.

Purpose of this tool & output

Plan and justify machine investment

How the output is used

Use it to plan and justify machine investment — a capex and investment plan across machine, phasing and payback.

Who should vet it

Your CA, to confirm the capex estimates, utilisation and payback before you commit.

Important cautions

AI-generated plan; validate figures before approaching a lender.
