

Colour Management Guide

Printing & Packaging

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a colour-management guide for your workflow — ICC profiles, colour spaces, spot-colour handling, calibration and control strips — so colour matches from screen to proof to press across runs. Describe your setup below.

Purpose of this tool & output

Get predictable, repeatable colour

How the output is used

Use it to get predictable, repeatable colour — a colour management guide across profiles, calibration and proofing.

Important cautions

AI-generated guidance; measurement devices give the most reliable results.
