

Pollution Board Consent Guide

Printing & Packaging

Document type: Licence / statutory filing · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a guide to obtaining pollution-board consent (CTE / CTO) for a printing or packaging unit — category, documents, effluent/emission and solvent-VOC handling, and the application route — under the Water and Air Acts. Describe your unit below.

Purpose of this tool & output

Get SPCB consent for your press

How the output is used

Use it to get SPCB consent for your press — the Consent to Establish and Operate a printing or packaging unit needs from the pollution board.

Who receives it

The State Pollution Control Board (Consent to Establish / Consent to Operate).

How to submit / file it

Apply on the state PCB portal with the project, effluent/emission and treatment details; category (red/orange/green) decides scrutiny.

Fees & charges

A fee based on category and project cost; validity and renewal vary by state and category.

Who should vet it

An environmental consultant for category, norms and treatment design.

Important cautions

AI-generated guide; category and conditions vary by state SPCB and solvent load; confirm locally.
