

Shrink Sleeve Guide

Printing & Packaging

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a shrink-sleeve specification for a container — film type and shrink ratio, layflat width, print (reverse) and seam, and shrink profile — so the sleeve fits the contour and shrinks without distortion. Describe the container below.

Purpose of this tool & output

Spec sleeves that fit and shrink right

How the output is used

Use it to spec sleeves that fit and shrink right — a shrink sleeve guide across film, print and shrink profile.

Important cautions

AI-generated spec; confirm with shrink trials on the actual container.
