

Print Shop Waste Management Plan

Printing & Packaging

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a waste-management plan for a printing or packaging unit — segregation, storage, disposal and recycling routes for paper trim, ink and solvent waste, chemicals, plates and rejects — with the hazardous-waste compliance points. Describe your unit below.

Purpose of this tool & output

Handle paper, ink, solvent and chemical waste

How the output is used

Use it to handle paper, ink, solvent and chemical waste — a print shop waste management plan that stays compliant and safe.

Important cautions

AI-generated plan; confirm hazardous-waste categorisation and authorisation with your SPCB.

Companion documents
