

Stock Reconciliation Helper

Retail & E-Commerce

Document type: Financial model / analysis · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Reconcile your system stock against a physical count — flagging each variance, its likely cause and the corrective action — plus an estimate of the shrink value. Paste your counts below.

Purpose of this tool & output

Reconcile physical stock with your system

How the output is used

Use it to reconcile physical stock with your system and to surface shrink and error before it grows.

Who should vet it

A store/inventory manager, to investigate large variances.

Important cautions

AI-generated reconciliation; investigate large variances.
