

English & Business-Communication Coach

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Targets the single biggest employability gap for many Indian graduates — spoken and written English confidence. Based on your current level and goal, it pinpoints your likely gaps and gives a structured daily-practice plan, an interview-English kit, professional email templates and rules, fixes for the most common India-English errors, a role-relevant vocabulary set, and confidence techniques. It is a personalised plan and drill set to practise out loud (record yourself or work with a partner) — not a live voice tutor.

Purpose of this tool & output

A personalised plan to fix the exact gaps holding your English back — interview English, email writing and daily practice drills

How the output is used

Use the daily practice plan every day — do the drills out loud, record yourself and compare, work through the error fixes and the vocabulary set, and use the interview or email kit for your goal. Consistency over weeks is what moves your level, not a single reading.

Important cautions

Language improves only with daily spoken practice — this is a plan and drills, best done aloud with a partner or by recording yourself, not a live tutor. Progress is gradual; keep at it and re-run it as your level rises.
