Purpose of this tool & output

List your pharmacy on online platforms

How the output is used

Use it to list your pharmacy on online platforms — a marketplace onboarding guide across listing, compliance and fulfilment.

Important cautions

Marketplaces add order volume but charge commission and the pharmacy typically remains legally responsible for lawful dispensing and prescription verification regardless of the platform. Keep your drug licence/pharmacist/records compliant. Confirm each platform terms and current e-pharmacy rules. This is general guidance.
