

Pharmacy Store Design & Layout

Pharmacy & Chemist Retail

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a store design plan — layout and zones, dispensing counter, refrigeration/cold-chain, storage and shelving, OTC/wellness display and compliance. Use it to design or fix the store. For refrigeration specifically use the Cold Chain Setup tool.

Purpose of this tool & output

Design an efficient, compliant chemist store

How the output is used

Use it to design an efficient, compliant chemist store — the layout, storage, cold chain and counter flow a pharmacy needs.

Important cautions

Design for fast, accurate dispensing (organised drug storage), compliant cold-chain and storage conditions, secure Schedule-X storage, and OTC/wellness visibility for upsell. Display the licence, pharmacist details and required notices. Adapt to your space; confirm storage-condition norms.

Companion documents

- Pharmacy Operations SOP
- Pharmacy Billing & POS Setup
- Prescription Handling & Dispensing SOP
- Counter Service & Patient Experience
- Opening & Closing Checklist Builder
- Cold Chain & Refrigerated Drug Setup
