Institutional Supply Agreement

Pharmacy & Chemist Retail

Document type: Contract / agreement · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a medicine supply agreement to an institution (clinic, hospital, corporate, panel) with discrete terms — supply scope, pricing/discount, credit, delivery and compliance. Use it to formalise institutional supply. Fill each term separately.

Purpose of this tool & output

Supply medicines to a clinic/hospital/institution

How the output is used

Use the draft to supply medicines to a clinic, hospital or institution — supply terms, price, credit, delivery and liability — reviewed by a lawyer.

Who receives it

The agreement is between the pharmacy (supplier) and the institution; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the price, credit-period and liability terms are the key content.

Who should vet it

A lawyer, to check the credit-period, price-revision and liability clauses before signing.

Important cautions

Template for guidance, not legal advice. Even in institutional supply, pricing must respect MRP and DPCO ceiling prices for scheduled drugs, and products must be genuine. Both parties should be appropriately licensed. Have a lawyer review before signing.

Companion documents

- Drug Distributor Supply Agreement
- Pharmacy Franchise Agreement
- Pharmacy Shop Lease Agreement
- Registered Pharmacist Employment Agreement
- Patient / Panel Credit Agreement
- E-Pharmacy / Online Platform Agreement Review
