

Academic Quality Audit

School Administration

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Runs an academic quality audit — curriculum coverage, teaching quality (via observation), assessment practice, learning outcomes, and student engagement — scoring each and giving an improvement plan, so academic standards are monitored, not assumed. Use it for a periodic academic review. For results use the Result Analysis & Improvement tool.

Purpose of this tool & output

Audit teaching-learning quality across the school

How the output is used

Use the audit to assess teaching-learning quality across the school.

Who should vet it

The academic head or an external reviewer, to validate findings.

Important cautions

An academic audit is developmental, not punitive; base it on classroom observation and outcomes, and follow it with teacher support and training.

Companion documents
