This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Designs an assessment and examination system — formative and summative balance, periodic tests and term exams, board-pattern alignment (competency-based questions), grading/reporting, and exam administration and integrity — so assessment supports learning and meets board norms. Use it to run assessments. For results use the Result Analysis & Improvement tool.

Purpose of this tool & output

Design fair assessment aligned to the board

How the output is used

Use the tool to design fair assessment aligned to the board.

Important cautions

Align assessment to your board pattern (competency-based questioning is the current direction) and use it to support learning, not just rank; follow board internal-assessment norms.
